GHD

GHD is one of the world's leading professional services companies operating in the global markets of water, energy and resources, environment, property and buildings, and transportation. We provide engineering, architecture, environmental, advisory, digital and construction services to private and public sector clients.

Established in 1928 and privately owned by our people, GHD operates across five continents – Asia, Australia, Europe, North and South America – and the Pacific region. We employ more than 10000 people in 200+ offices to deliver projects with high standards of safety, quality and ethics across the entire asset value chain. Driven by a culture of client service excellence, we connect the knowledge, skill and experience of our people with innovative practices, technical capabilities and robust systems to create lasting community benefits.

With a workplace rich in diversity of thought, background and experience, we have what it takes to deliver amazing outcomes for our clients. Committed to sustainable development, GHD improves the physical, natural, and social environments of the many communities in which we operate. We are guided by our workplace health, safety, quality, and environmental management systems, which are certified to the relevant international standards (ISO and OHSAS). In alignment with the global demands of water, energy and urbanisation, our aim is to exceed the expectations of our clients and contribute to their success.

keynote speaker

Marie Lam-Frendo

Chief Executive Officer, Global Infrastructure Hub

Marie Lam-Frendo was appointed CEO by the Board of the Global Infrastructure Hub, effective January 28th 2019. Prior to joining the GI Hub, she was the Head of Asia-Pacific for Acuity, the advisory services business of the SNCL group, helping clients in regard to infrastructure project strategy and finance.

From 2011 to 2014, Marie headed the Infrastructure Initiatives department of the World Economic Forum, where she led their thought leadership activities, publishing thought leadership reports on best practices in the infrastructure sector. She led the dissemination effort of these best practices to governments and advocated to coalitions such as the B20 and the G20.

Before that, Marie worked for European utilities Essent then RWE where she drove their business development activities in the Africa and Central Asia region for various commodities, including their equity investment in LNG and hydro power plants. She started her career in 2001, and worked for various engineering consulting firms holding several technical and commercial positions for energy and transport projects in Africa, Middle East and Europe.

Marie holds an MSc of Civil Engineering from EPF, an MSc of Marketing and Strategy from ESCP-EAP (Paris), and an MSc of Management and Leadership from WEF - in partnership with LBS and INSEAD. She is a Global Leadership Fellow of the World Economic Forum.

speaker

Matina Papathanasiou

Deputy Head of Global Infrastructure, QIC

Matina Papathanasiou is the Co-Founder and Deputy Head of QIC Global Infrastructure which manages over \$14billion in direct infrastructure investments in airports, ports, toll roads, energy and water utilities and social infrastructure. Matina has over 30 years experience in asset funds management and infrastructure investment and investment banking.

She has been a director on infrastructure companies for over 18 years and has been a director on a number of boards of infrastructure companies including current director Port of Melbourne and Northwestern Roads Group. Previous board appointments include Brisbane Airport Corporation, M7, Epic Energy, PARF, QML, TransGrid, Epic Energy, Pacific Solar and India Infrastructure Holdings.

Matina has a Bachelor of Commerce and Bachelor of Laws from the UNSW and is a graduate of the Australian Institute of Company Directors.

facilitator

Mikel Alonso

Professor of Management, Director, Centre for Workforce Futures, Macquarie University

Mikel is responsible for GHD's transportation market in Australia, including bringing the best talent, ideas and technology to clients across the road, rail, aviation and ports sectors. In this role, Mikel works with GHD's teams around Australia to help clients understand mobility challenges and develop solutions that draw on the latest technologies and knowledge.

With a strong leadership track record across Australia, New Zealand, Europe and the United Kingdom, Mikel is passionate about delivering sustainable, safe, accessible and efficient transport networks.

about CEDA

CEDA is an independent, not-for-profit membership organisation. CEDA identifies policy issues that matter for Australia's future and pursue solutions that deliver better economic, social and environmental outcomes for Australia. CEDA's cross-sector membership spans every state and territory and includes more than 780 of Australia's leading businesses, community organisations, government departments and academic institutions.

Membership

Organisations join CEDA because CEDA delivers exposure to high level thought leadership, timely briefings on issues of economic importance, access to networking and brand reach through sponsorship and hosting opportunities. In addition to high profile public events, CEDA also delivers regular member only events for employees of member organisations and exclusive Trustee only boardroom briefings for senior executives from member organisations. These provide a unique opportunity for peer-to-peer knowledge exchange and for speakers and attendees to talk candidly on issues.

Research and policy

CEDA's only agenda is to pursue good public policy to progress Australia's economic and social development. Since 1960 CEDA has produced more than 3000 publications, research reports and articles highlighting emerging issues and directions in a diverse range of policy areas. Research in 2019 will focus on Australia's long-term budget position, the effects of temporary migration, a survey of Australian businesses on their approach to economic development, and new approaches to addressing entrenched disadvantage.
